NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

\* \* \* \* \*

I. GENERAL INFORMATION (Rule R647-3-104)

1. Name of Claim/Mine: LEASE 1
2. Name of Operator/Applicant: ROBERT B WILSON  
Company ( ) Corporation ( ) Partnership ( ) Individual (X)
3. Permanent Address: 1927-A HARBOR BLVD #175  
City: COSTA MESA State: CALIF Zip Code: 92627  
Telephone Number: (714) 675-9824
4. Ownership of Land Surface:  
Private (Fee) ☐ Public Domain (BLM) ☐ National Forest (USFS) ☐  
State of Utah ☒ Other: \_\_\_\_\_
5. Ownership of Minerals:  
Private (Fee) ☐ Public Domain (BLM) ☐ National Forest (USFS) ☐  
State of Utah ☒ Other: \_\_\_\_\_

Utah Mining Claim Number(s): —

Utah State Lease Number(s): M.L. 45866

6. Have the above owners been notified in writing? Yes X No —  
If no, why not? —

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No —

## II. PROJECT LOCATION & MAP (Rule R647-3-105)

1. Project Location (legal description):

County(ies): MILLARD

— 1/4, of SW 1/4, of NW 1/4: Section: 36 Township: 23S Range: 9W  
— 1/4, of — 1/4, of — 1/4: Section: — Township: — Range: —  
— 1/4, of — 1/4, of — 1/4: Section: — Township: — Range: —

2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any previous disturbances in the immediate vicinity that he is not responsible for.

## III. OPERATION PLAN (Rule R647-3-106)

1. Type of mining: Surface ☒ Underground ☐

2. Mineral(s) to be mined: PERLITE

3. Provide a brief description of the proposed mining operation and onsite processing facilities. BENCH + BLAST ORE FROM HILLSIDE - TRUCK  
ORE TO CRUSHING PLANT 50 MILES AWAY. - NO PROCESSING  
ON SITE AT THIS TIME

New Road(s): Length 800 (ft) Width 10 (ft) OLD ROAD RE-DO

Total project surface acreage to be disturbed: 4 (acres)

#### IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R647-3-110)Yes ☐ No ☒

Any planned deviations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging Requirements, or R647-3-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

NOTICE OF INTENT TO COMMENCE MINERAL EXPLORATION/MINING OPERATIONS

1. Lessee Information;

A. Lease No. M.L. 45866

B. Name of lessee, Robert B. Wilson

C. Name of operator, Dutson Supply Co.  
790 W. Main  
Delta, Utah 84624

D. Other mineral interests, none - GRAZING - SEVEN SPRINGS RANCH  
PO BOX 8 KANOSH UT 84637

2. Maps - attached

3. Statement of methods,

A. Mining will be by benching hillside with a dozer or by blasting benches with explosives. Then loader will scoop up material and load into trucks for transport. Surface acreage disturbed will be less than 5 acres and estimated tonnage removal per year is about 12,000 tons.

B. Water usage - none . existing small drainage may be widened and no dumping will occur. Creek runs only after large down-pour for several minutes.

C. Number of employees, 2 - 3 persons housed off site.

D. Time schedule, Commencing as soon as possible, hopefully continuing for about 3 years or more depending on orders.

4. Plan of reclamation,

A. Present land use. - occasional grazing possible- land will be returned to this use after mine ceases.

B. As outcrop of ore is removed land will be reshaped to a more gentle slope with topsoil respread over it.

C. Toxic or unsuitable materials disposal, - None needed.

D. Reseeding. - Properly prepare seedbed to a depth of 6 inches, reseed disturbed areas with adaptable species. Seeding with 20 lbs/acre of native and introduced species of grass, forb, and browse seed.
